OVEN CLEAN quickly penetrates layers of encrusted food deposits and heavy accumulations of grease and carbonized materials.
APPLICATION: Use impermeable gloves, safety glasses, protective clothing and proper ventilation. Before use, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces must be thoroughly rinsed with potable water. Preheat oven or grill to 200°F and turn off. Working from the back of the oven to the front, spray liberally, completely covering surfaces with product. Avoid contact with thermocouples. Allow to set 5-10 minutes. Wipe clean with a paper towel, clean cloth or sponge. Extremely heavy encrustations may require a second application or some abrasion. Rinse the cleaned surfaces with water thoroughly.
Do not use on aluminum or other soft metals, painted surfaces, asphalt, tile or linoleum. Do not mix with other chemicals.

OVEN CLEAN rapidamente penetra en la capa de depositos de comida incrustada y acumulaciones pesadas de grasa y materiales carbonizados.
APLICACION: Use guantes impermeable, lentes de seguridad, ropa protectiva y ventilacion propio. Antes de usar, es necesario quitar del cuarto o proteger con cuidado todos los productos comestibles y los materiales de embalaje de comida. Despues de usar, es necesario enjuagar todas las superficies con agua potable. Precaliente el horno o parrilla a 200°F y apaguelo. Limpiando desde la parte posterior del horno hacia el frente, rocie ampliamente cubriendo toda la superficie con el producto. Evite contacto con las termocuplas. Deje asentar por 5 a 10 minutos. Limpie con una toalla de papel, trapo o esponja. Acumulaciones extremadamente pesadas pueden requerir una segunda aplicacion o abrasion. Enjuague completamente con agua las superficies que se han limpiado.
No utilice en aluminio u otros metales suaves, tampoco en superficies pintadas, asfalto, baldosin o linoleo. No mezcle con otros quimicos.
