APPLICATION: Dispense as needed. Do not overuse. Degrades with age, heat and exposure to sunlight. Use test kit and increase dosage as necessary to obtain required level of available chlorine. Strong Bleaching Agent. Do not get on fabrics, clothing, carpeting or other surfaces susceptible to discoloration. Even if used on white fabric, add material onto water. Do not apply the concentrated product directly to fabric as this may permanently discolor and damage that area. Do not add this product to any dispensing device containing remnants of any other product. Contamination may start a chemical reaction and generate heat, chlorine gas and possible fire and explosion. In case of contamination or decomposition, do not reseal container.

Additional Hazard & Precautionary Statements: Strong Oxidizing Agent. Mix only with water. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter will result in the release of potentially poisonous vapor which may be harmful and may even cause death. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated. May be corrosive to metals. Keep only in original container in a cool, dry, well-ventilated place away from direct sunlight, heat and other chemicals to avoid deterioration. Keep container tightly closed. Do not breathe the mist or vapor. Do not eat, drink or smoke when using this product. Do not contaminate food or feed by storage, disposal, or cleaning of equipment. In case of spill, absorb spillage to prevent material damage. Flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. Very toxic to aquatic life with long lasting effects. Avoid release of the concentrated product to the environment. Use up completely. Recycle empty containers or dispose to an approved waste disposal plant.

FIRST AID

Eyes: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove any contact lenses. Continue to rinse for at least 15 minutes.

Skin: Wash with plenty of water. Take off contaminated clothing and shoes. Wash before reuse.

Ingestion: If conscious and alert, rinse mouth and drink a glass of water if able to swallow. Do not induce vomiting unless directed by medical personnel.

Inhalation: Remove to fresh air and keep comfortable for breathing. If any irritation persists, seek medical attention immediately.

PELIGRO: Corrosivo. Oxidante. Puede agravar un incendio. Provoca lesiones oculares graves. Provoca quemaduras graves en la piel. Nocivo si se inhala o se ingiere. Evite el contacto con los ojos y la piel. No ingerir o inhalar. Lleve guantes impermeables, gafas o máscara de protección y ropa protectora. Use en un área bien ventilada. Lávese bien las manos después de manipular. Lea cuidadosamente La Hoja De Datos De Seguridad antes de manejar.

PRIMEROS AUXILIOS

Ojos: Enjuague los ojos inmediatamente con mucha agua, levantando ocasionalmente la parte superior e inferior de los párpados. Retire los lentes de contacto. Siga enjuagando durante al menos 15 minutos.

Piel: Lávese con mucha agua. Quitese la ropa y calzado contaminados. Lave antes de reutilizar.

Ingestión: Si está consciente y alerta, enjuague la boca y beba un vaso de agua si puede tragar. No induzca el vómito a menos que lo indique el personal médico.

Inhalación: Lleve al aire fresco y mantener confortable para respirar. Si la irritación persiste, busque atención médica inmediatamente.
