**Excellent Foaming Action / Excelente Accion Espumosa*

Ocean Blue is a pH-controlled dishwashing liquid which leaves dishes sparkling clean. Active emulsifying and wetting agents combine with long-lasting suds to fight grease and minimize spotting on dishes, silverware and glasses. Ocean Blue is acceptable for use as a general cleaning agent on all surfaces, or for use with steam or mechanical devices in all departments in official establishments operating under the Federal meat, poultry, rabbit, shell egg grading, and egg products inspection programs of the USDA. Before using this compound, food products and packaging materials must be removed from the area or carefully protected. After using this compound, all surfaces must be thoroughly rinsed with potable water. This compound must be used in a manner so that all odors associated with the compound are dissipated before food products or packaging materials are re-exposed in the area.

APPLICATION: Add 1/2 to 2 oz. per 10 gallons of water for washing dishes and crystals. Approximately 2 oz. may be added per 5 gallons of water for washing pots and pans. After washing, rinse thoroughly with water.

Ocean Blue es un liquido lavaplatos con pH balanceado que deja los platos rechinando de limpios. Agentes activos emulsificantes y humectantes se combinan con espuma de larga duracion para luchar contra la grasa y minimizar las manchas en platos, vasos y cubiertos. Ocean Blue puede ser usado como un agente de limpieza general en todas las superficies, o con dispositivos de vapor o mecánicos en todos los departamentos de los establecimientos oficiales que operan bajo los programas federales de la carne, aves de corral, conejo, cáscara de huevo, y productos de huevo de inspección del USDA. Antes de usar este compuesto, los productos alimenticios y materiales de embalaje deben ser retirados de la zona o cuidadosamente protegidos. Después de usar este compuesto, todas las superficies deben enjuagarse a fondo con agua potable. Este compuesto debe ser utilizado de tal manera que todos los olores asociados con el compuesto se disipen antes de re-introducir los productos alimenticios o materiales de embalaje en la zona.

APLICACION: Añada 1/2 a 2 onzas por cada 10 galones de agua para lavar platos y cristales. Aproximadamente 2 onzas pueden ser añadidas por 5 galones de agua para lavar ollas y sartenes. Luego de lavar, enjuaguese bien con agua.
