This product is a powder soap that is designed for tough-to-clean concrete floors, driveways and walls. It cuts through surface grease and oil, preventing them from penetrating and permanently staining the concrete. This product is great for areas of high pedestrian, automotive and forklift traffic.

Read Safety Data Sheet Carefully Before Handling. Use impermeable gloves, safety goggles and protective clothing. Do not use on wood, marble, painted, sealed, sensitive or untested surfaces. Test this product on an inconspicuous spot. Continue use if satisfied.

APPLICATION: Apply this product using one of the following methods. Always use warm or hot water if available.

1. **Sprinkle Method:** Wet the concrete surface. Sprinkle powder over the affected area. Work into the surface of the concrete with a brush. Wait 2-5 minutes and scrub more with a stiff brush. Wash with pressure washer if available.

2. **Mop Application:** Mix 1 to 2 cups of powder per gallon of water and spread generously on the concrete with a mop. Allow 1-2 minutes to soak. Work into the surface of the concrete with a brush. Wait 2-5 minutes and scrub more with a stiff brush. Wash with pressure washer if available.

3. **Scrubber Machine:** Mix 1 cup of powder per gallon of water. Dissolve completely and pour into your floor scrubber. Apply generously onto the floor. Allow 1-2 minutes to soak, then scrub over the surface at slow speed at least 3 times.

Do not allow solution to dry on concrete. Brush from different directions. Rinse thoroughly with water to remove all chemical residues. Use wet vacuum and/or squeegee to completely dry contact surfaces. Do not allow traffic until the surface is completely residue-free and dry.

KEEP AWAY FROM OTHER CHEMICALS.
