

UN1760, Corrosive liquids, n.o.s.
(contains Sodium hydroxide solution), 8, PGII.

DANGER

Hazard Statements: Harmful if swallowed.
Causes severe skin burns and eye damage.
Causes serious eye damage. Harmful to aquatic life with long-lasting effects.

PRECAUTIONARY STATEMENTS

Prevention: Keep container tightly closed. Keep only in original container. Do not breathe fumes, gas, mist, vapors or spray. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves, protective clothing and eye protection or face protection.

Response/First Aid:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or physician.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse.
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or physician.
Absorb spillage to prevent material damage.

Storage: Store in a well-ventilated place. Store locked up. Store away from other materials.

Disposal: Dispose of contents and container to an approved waste disposal plant in accordance with applicable local, state, federal and international regulations.

GRILL CLEAN quickly penetrates layers of encrusted food deposits and heavy accumulations of grease and carbonized materials.

APPLICATION: Use impermeable gloves, safety glasses, protective clothing and proper ventilation. Before use, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces must be thoroughly rinsed with potable water. Preheat oven or grill to 300°F and turn off.

Ovens: Working from the back of the oven to the front, spray liberally, completely covering surfaces with product. Avoid contact with thermocouples. Allow to set 5-10 minutes. Wipe clean with a paper towel, clean cloth or sponge.

Grills: Pour product liberally onto grill. Allow only 10-20 seconds, and use a stainless steel scraper to remove softened grease. Extremely heavy encrustations may require a second application or some abrasion. Rinse the cleaned surfaces with water thoroughly.

Do not use on aluminum or other soft metals, painted surfaces, asphalt, tile or linoleum. Do not mix with other chemicals.

GRILL CLEAN rapidamente penetra en la capa de depositos de comida incrustada y acumulaciones pesadas de grasa y materiales carbonizados.

APLICACION: Use guantes impermeable, lentes de seguridad, ropa protectora y ventilacion propio. Antes de usar, es necesario quitar del cuarto o proteger con cuidado todos los productos comestibles y los materiales de embalaje de comida. Despues de usar, es necesario enjuagar todas las superficies con agua potable. Precaliente el horno o parrilla a 300°F y apaguelo.

Hornos: Limpiando desde la parte posterior del horno hacia el frente, rocíe ampliamente cubriendo toda la superficie con el producto. Evite contacto con las termocuplas. Deje asentar por 5 a 10 minutos. Limpie con una toalla de papel, trapo o esponja.

Parrillas: Vierta el producto generosamente a la parrilla. Permita sólo 10-20 segundos, y use un raspador de acero inoxidable para eliminar la grasa ablandada.

Acumulaciones extremadamente pesadas pueden requerir una segunda aplicacion o abrasion. Enjuague completamente con agua las superficies que se han limpiado.

No utilice en aluminio u otros metales suaves, tampoco en superficies pintadas, asfalto, baldosin o linoleo. No mezcle con otros quimicos.
