BWT62 Boiler Water Treatment is for the preventive maintenance of commercial boilers. Proper use will help control water pH and hardness, thus preventing scale build-up. In combination with following the equipment manufacturer's guidelines and recommendations, the use of this product will produce maximum boiler life and efficiency.

Application: Read Safety Data Sheet Carefully Before Handling. Follow the boiler manufacturer's recommended daily blow-down procedures.

Keep away from other chemicals. Mix only with water. Do not add this product to any dispensing device containing remnants of any other product. Contamination may start a chemical reaction and generate heat and possible fire and explosion. In case of contamination or decomposition, do not reseal container.
